Create Blueprint Using Zoho Creator

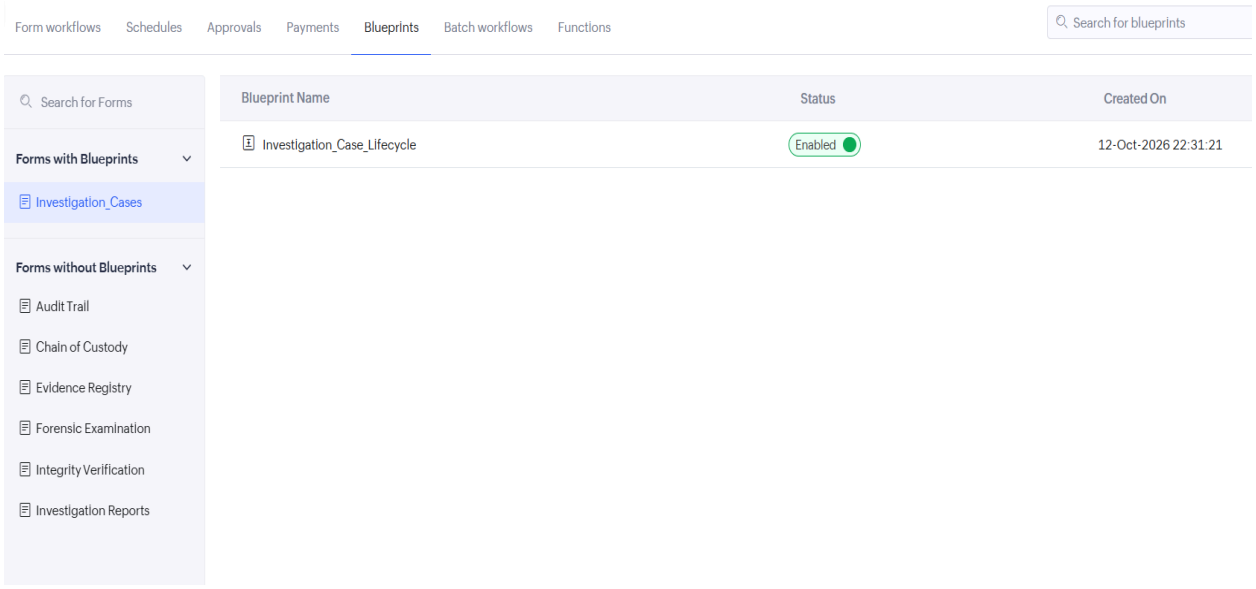

Aim

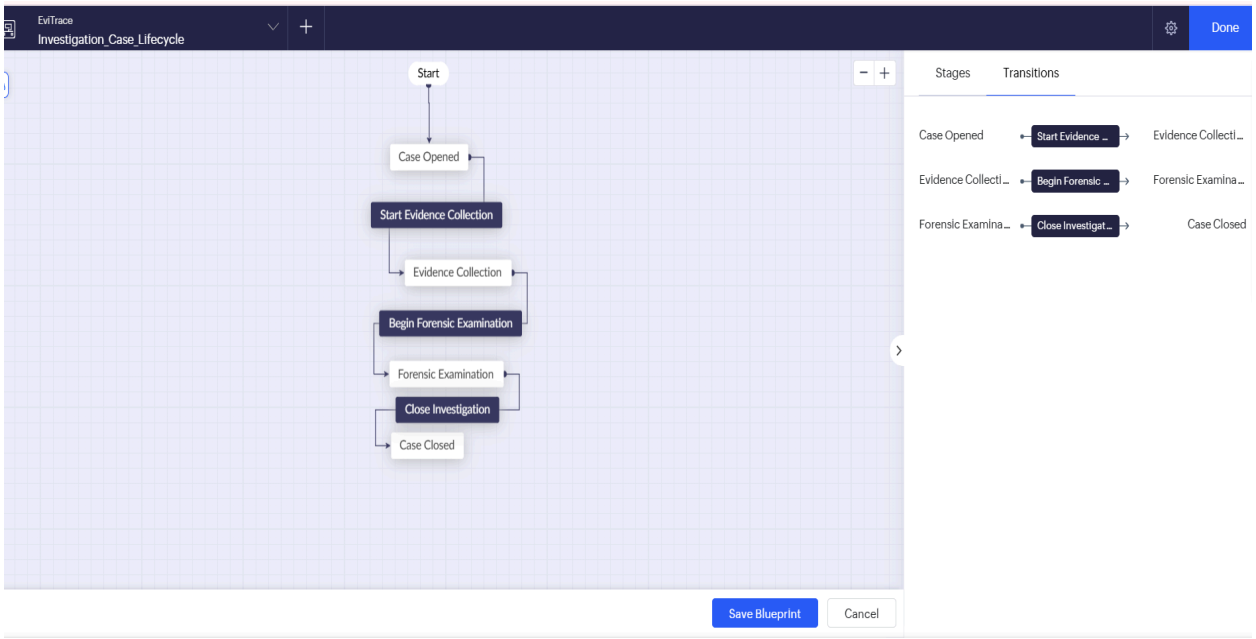

To design and implement a blueprint in Zoho Creator to manage the investigation case lifecycle in the EviTrace application.

Procedure

1. Open the EviTrace application in Zoho Creator.
2. Navigate to Workflow → Blueprints.
3. Create a blueprint named `Investigation_Case_Lifecycle` for the Investigation Cases form.
4. Define the stages as Case Opened, Evidence Collection, Forensic Examination, and Case Closed.
5. Configure transitions such as Start Evidence Collection, Begin Forensic Examination, and Close Investigation.
6. Set the required transition conditions and actions to control movement between stages.
7. Enable the blueprint and test the transitions using investigation case records.

Output

Result

The `Investigation_Case_Lifecycle` blueprint was implemented to manage investigation cases through defined stages and transitions.
