

Forms Design Using Zoho Creator

AIM

To create and manage student-related forms using **Zoho Creator** for storing student profile, academic, guardian contact, and course enrollment information.

PROCEDURE

1. Create a new application named **Student Management System** in Zoho Creator.
2. Create the following four forms:
 1. **Student Profile** – to store basic student details such as Student ID, Name, Date of Birth, Gender, Email, Phone Number, and Address.
 2. **Academic** – to store academic details such as Student ID, Department, Semester, CGPA, Attendance, and Academic Year.
 3. **Guardian Contact** – to store guardian information such as Guardian Name, Relationship, Contact Number, Email, and Address.
 4. **Course Enrollment** – to store course enrollment details such as Student ID, Course Name, Course Code, Semester, Enrollment Date, and Faculty Name.
3. Add suitable field types such as Single Line, Number, Email, Phone, Date, Dropdown, and Radio fields.
4. Configure the required fields and arrange the fields appropriately.
5. Enter sample student records into each form.
6. Preview and verify all the forms to ensure that the data is entered and stored correctly.

OUTPUT

The screenshot displays the Zoho Creator form design interface for an application titled "Student Management System". The main workspace shows a form titled "Academic Records" with several fields: "Student Name" (with a person icon), "Email", "Program Name", "Enrollment Date", "Academic Level", "GPA", "Semester", "course code", "year", and "Status". Each field has a red asterisk indicating it is required. On the left, a "Basic Fields" panel offers icons for Name, Email, Address, Phone, Single Line, Multi Line, Number, Date, Time, and Drop Down. On the right, a "Field Properties" panel is visible, showing settings for the selected "Student Name" field, including its name, link name, validation (Mandatory is checked), and display options (First Name and Last Name are checked). The bottom status bar indicates a trial expires in 8 days and provides links for upgrade, help, and smart chat.
